

Project update – Pitt Street North site work zones

July 2021

Sydney Metro is Australia’s biggest public transport project.

Services started in May 2019 in the city’s North West with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown in 2024. There will be new CBD metro railway stations at Martin Place, Pitt Street and Barangaroo and new metro platforms at Central.

In 2024, Sydney will have 31 metro railway stations and a 66 kilometre standalone metro railway system. There will be ultimate capacity for a metro train every two minutes in each direction under the Sydney city centre.

CPB Contractors (CPB) will deliver the new Sydney Metro Pitt Street Station in the Sydney CBD.

Pitt Street Station construction work zones

From **Tuesday 6 July 2021**, on-street work zone operating hours for construction of the integrated station development will be updated.

The new work zone operating hours are outlined below. Outside of these hours the work zone will operate as a ‘No Stopping’ zone.

Please see the map overleaf showing the locations of on-street loading zones.
